### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance: Upon a complete review of the entire written record the instant application is in condition for allowance. The prior art rejections of record are withdrawn in view of Applicant's comments presented in the Brief on Appeal. Specifically, the claim language requiring non-telecentric illumination as the light source defines the claims over the prior art of record. The clarification provided by Applicant's as to the nature of this light compared to that utilized in the rejection of record shows that there is a distinct difference in the illumination. Based on this fact, the rejections are withdrawn and the case is passed to Issue.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

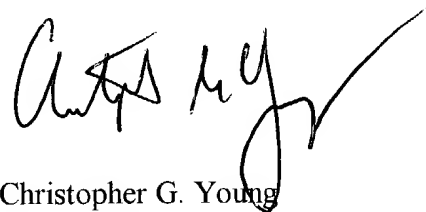

3. The Examiner has considered the references cited on the form PTO-1449 to the extent that they are in English. That extent being a title and brief description of the embodiments.

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Christopher G. Young whose telephone number is 571-272-1394. The examiner can normally be reached on Monday-Friday.
